Education

University of California, Santa Cruz

Sep. 2019 – June 2023

Bachelor of Science in Computer Science

Santa Cruz, CA

Relevant Coursework

- Web Applications
- Algorithms
- Artificial Intelligence
- Computer Graphics
- Software Methodology
- UI/UX Design
- Computer Systems
- Computer Architecture

Experience

Tesla March 2025 – Present

AP Engineer

Palo Alto, CA

- Formulated hours of footage to train Optimus bot to mimic human interactions and tasks.
- Conducted in-depth evaluations of Optimus' A.I. performance and behavior.
- Troubleshoot discrepancies within Tesla software and Optimus' abnormal behaviors.
- Collaborated with engineers to streamline and improve the consistency and quality of the data collection process.

Develop For Good (Good Samaritan Haitian Alliance Church) October 2024 – February 2025

Software Engineer | React Native, Expo Go, Firebase, Android Studio, Google Maps API

San Leandro, CA

- Developed Concordia, a collaborative platform to coordinate services and volunteer teams to support over 17,000 sugar cane workers from 50+ impoverished communities in the Dominican Republic.
- Coordinated with a team of 6 developers and designers to scope, implement, and deploy key features for the application.
- Integrated database with key UI components to dynamically populate and display village data for aid coordination.
- Utilized version control best practices to manage code contributions and ensure seamless team collaboration.
- Conducted thorough testing and debugging to ensure application reliability and smooth deployment.

Revivn August 2023 – February 2025

Computer Technician Associate

San Leandro, CA

- Assessed performance and physical conditions of 100+ devices weekly to optimize their functionality for repurposing.
- Evaluated and repaired 50+ of customer returns weekly, ensuring prompt resolutions for customer satisfaction.
- Repaired Macbook components, such as keyboards, LCD monitors, and batteries, restoring original functionalities.
- Thoroughly documented configurations, completed repairs, and cosmetic details within the company's inventory system.
- Troubleshoot errors arising from incompatible MacOS versions and malfunctioning physical device components from Mac and Windows systems.

University of California, Santa Cruz April 2023 – June 2023

Computer Graphics Tutor

Santa Cruz, CA

- Organized and led office hours for over 40 university students, providing support with assignments and studies.
- Individually guided students in troubleshooting programming projects built with WebGL and ThreeJS.
- Coordinated with the Professor and TAs on logistics and integrity to ensure a smooth class operation.
- Managed class Discord and Piazza forum, addressing class and assignment related questions from students.

Personal Projects

Device Replacement Tool | TypeScript, Next.js, Playwright, MaterialUI Fall 2024 - Present

- Streamlined and automated finding device replacements within database system, increasing productivity by 75%.
- Web scraped company's database table with Playwright to compute the best possible replacement for customer device.
- Leveraged MaterialUI to closely match company's interface to improve familiarity and readability for employees.

Pantry | JavaScript, HTML/CSS, PostgreSQL, Node, Express, React, MaterialUI, Figma Fall 2022 - Present

- Employed the Scrum methodology to lead the development of a web app that helps housemates manage their pantry.
- Carefully outlined the prototype of the user interface with Figma and implemented the final design with React.
- Engineered SQL tables in PostgreSQL to store crucial user data, including food items, usernames, and passwords.
- Implemented efficient data transmission with fetch requests, enhancing the interaction between the UI and SQL table.

Technical Skills

Languages: Python, JavaScript, HTML/CSS, C/C++, Haskell, Assembly

Databases: PostgreSQL, Firebase

Developer Tools: VSCode, Git/Github, Docker, Heroku, Postman

Technologies/Frameworks: React-Native, Node, Express, Jest, WebGL, NextJS, TailwindCSS, Figma, Canva

Libraries: React, ThreeJS, BeautifulSoup, MaterialUI

Project Management: Agile Methodology, Scrum Framework
